E,

I talked with Deldi and its just too much for her to make this trip. Not due to EPA resources, but she didn't plan on going and to go now would cause hardship and she has a lot going on. I appreciate it would be good to have her for continuity, but I think this time we need to give her a pass.

I would recommend Deldi attend the meeting simply for the sake of continuity with the community representatives and the advisory body. She has been the face of EPA at these meetings and, at least for the time being, she should be present, at least for this one coming up.

We can probably support all or part of her travel if that is the main issue.

Hey there, so, Dan after your check in with Alexis last week, where i learned Enrique would also be attending, Alexis and I agreed it didn't make sense for me also to go. We are footing our travel there and I wouldn't really add anything,

Of course I will attend the prep session and will ask Abi to add me to the invite. I will work up a background piece on the AG.

Sound okay?
